

# ALTERNATIVE WAYS TO GIVE

REBOOT Recovery helps veterans, first responders and their families heal from the moral and spiritual wounds associated with service-related stress and trauma. You can help advance our mission through the following methods of giving that go beyond a one-time donation.

## PLANNED GIVING

With a planned gift, you can combine your desire to give to charity with your overall financial, tax, and estate planning goals. A planned gift is a contribution that is arranged in the present and allocated at a future date. Your investment will help those touched by trauma — today and for years to come.

## DONOR ADVISED FUNDS

Automate and simplify your giving with a Donor Advised Fund. A DAF works like a charitable checking account and allows you to make deposits in the form of cash, stocks and assets such as real estate and business interests. With a few clicks, you can give directly to your favorite organizations and receive a single tax report.

## MEMORIAL GIVING

A donation to REBOOT is a thoughtful way to honor someone whose life was impacted by service to our nation. Invite people to give in honor of someone in lieu of flowers. To request giving envelopes or to have a website set up in honor of a loved one, please contact our team.

**REBOOT** RECOVERY

*Please get in touch with any questions or ideas you may have. Our team is dedicated to helping you impact as many lives as possible through your investment.*
